“I wish I knew about Certn sooner, maybe because I think we could’ve been saving money earlier, but also because I feel a bit of FOMO getting in late to the party.”

Deanna Brousseau

Director, Talent Acquisition

AltaML

Don't Let Bad Candidate Experiences Compromise Your Employer Brand

The vendor AltaML was using before Certn was heavily administrative for the candidate. 80% of the time, the candidate would have to go to the post office to verify their identity, extending the process longer and compromising the candidate experience.

For Deanna, the candidate experience is everything. One of her biggest pain points in the hiring process is how competitive the job market is. Signing offers quickly with the least amount of friction is critical to building a high-performing team. This is where Certn comes in.

Faster Results for Peace of Mind

AltaML offers are conditional upon completing background and reference checks, so the time savings is a big deal. Certn helps AltaML close a candidate in minutes instead of days. Time is AltaML's biggest competitor, and with Certn, it's never an issue.

"If you do the math, it's ridiculous. I'm not good at math, that's why I'm in HR, but a lot of the time, I think to myself: **'Are you serious? Do I really save this much time using Certn?'**"
