“I wish we knew about Certn sooner. I think about all those times when our stores needed more employees, and we were waiting for those regulatory requirements.”

Background Screening is a Non-Negotiable in Regulated Industries

Cannabis dispensary operators, like those who sell other regulated consumables, have to be mindful of the laws when staffing outlets. By law, everyone needs to have their provincial cannabis certifications on file and criminal record checks are vital too. For keyholders and other senior-level roles, background checks are non-negotiable.

For Christina, a slow candidate experience gets in the way of her work and reflects poorly on the company. Getting stores staffed with qualified people quickly is important to building a high-performing team. This is where Certn helps.

Faster Results = Better Candidate Experience

With Certn, follow-ups with candidates have dropped at least 75%, which is fantastic for the recruitment team as it frees them, up to focus on other priorities.

“Being able to provide faster turnaround times to our new hires is such a great experience. We know we can get results back in about 24 hours. It's fantastic.”
